# ***NTCC - Proponent School Participation***

While we are interested in proponent DOT visibility, it might not be necessary for the actual DOT to attend, **however the TATS-Course POI developer and accreditation action officers should definitely attend the NTCC.**

The TASS Integration VTCs have been extremely beneficial in bringing TASS issues to DOT level, which will allow action officer types to get a lot accomplished at the NTCC. The TASS BNs need to have contact/interaction with proponent DOT action officers.
